

ISANA NZ invites you to a Community Engagement Training Day

22nd November, NMIT, 322 Hardy Street, Nelson

Overall Aim:

To help you to share in creating and catalysing pastoral support for international students and their families through community engagement.

- By developing connectivity amongst international student support services, local community and international students;
- Through greater awareness of opportunities for community engagement and more effective communication of these opportunities;
- Enabling campus international support services, local communities and international students to enrich the student experience through effective engagement.

Programme

Schedule

A. Awareness

- Theoretical underpinning of community engagement
- Knowing your international student body and own local communities
- Understanding resources, opportunities, diversity and settlement
- Exploring attitudes critical to developing community relationships
- Developing cultural literacy

B. Building Bridges

- Identifying connections for successful community engagement
- Building bridges amongst key players in campus & community
- Developing a support group to catalyse community engagement
- Providing activities that build community within a diverse student body
- Exploring intercultural skills and competence

C. Communication

- Communicating information regularly and relevantly
- Identifying what works and what does not
- Content of communication
- Intercultural communication strategies for community engagement

D. Development

- Tailoring frameworks for developing and organising in own contexts
- Identifying what needs to be done and who is ideally placed to do it
- Developing people resources within campus and community
- Achieving change and continuity of programmes
- Sharing case studies and networking connections
